## **Manuscript submissions**

The aim of Border Crossing is to provide a medium for the publication of original articles covering the entire span of Social Sciences, Business and Management and Humanities. The editors are particularly keen to publish critical, multidisciplinary perspectives on a wide range of issues in cognate areas.

All contributors must now submit to Border Crossing via the online submission process after registering with this website.

Works submitted for publication are entered into a double-blind peer review system and normally read by at least two assessors. The Editors' decision will be final. Articles submitted to Border Crossing should be original pieces of work, not been published before and not being considered for publication elsewhere in its final form either in printed or electronic form.

Please make sure your manuscript is prepared according to the guidelines provided on our website.

## *Editorial Policy*

All submitted papers are screened and reviewed by the editorial and/or external reviewers. Referees are expected to provide supportive comments regarding their decisions. Following the receipt of a manuscript in the appropriate format, we anticipate a decision within three months.
